

HARVARD MEDICAL SCHOOL
Library of Evidence

SEARCHING

The Library of Evidence has been organized to serve as a public resource for medical evidence.

You can simply browse the Library, listed by source title, or do a custom search using **the search bar** at the top of the page. You may also use the **Filter by** fields or the **Quick Filters** links.

Q Search in guideline name, dx/symptom, tag or piece of logic

Filter by:

Modality	Body Region	Contrast	Oxford Grade	USPSTF
Speciality	Professional Society	Choosing Wisely	Endorsed by	
Dx/Symptom	Source Type	NEATS Assessment	Tags	
Priority Clinical Area	Age Group	Study Design	Entity	

FILTER

Quick Filters:

[All \(761 CELS\)](#) [Choosing Wisely \(78 CELS\)](#) [Oxford Grade 1-2 \(180 CELS\)](#) [Oxford Grade 1-4 \(215 CELS\)](#)

The Library of Evidence covers over 700 pieces of evidence, inclusive of [CMS' proposed Priority Clinical Areas](#).

To filter by a specific PCA, please select from the Priority Clinical Area dropdown menu.

Q Search in guideline name, dx/symptom, tag or piece of logic

Filter by:

Modality	Body Region	Contrast	Oxford Grade	USPSTF
Speciality	Professional Society	Choosing Wisely	Endorsed by	
Dx/Symptom	Source Type	NEATS Assessment	Tags	
Priority Clinical Area	Age Group	Study Design	Entity	

FILTER

Quick Filters:

- Headache (traumatic and non-traumatic)
- Cervical or neck pain
- Low back pain
- Suspected pulmonary embolism
- Coronary artery disease (suspected or diagnosed)
- Cancer of the lung (primary or metastatic, suspected or diagnosed)
- Shoulder pain (to include suspected rotator cuff injury)
- Hip pain

VIEWING

CELSs (Clinical Evidence Logic Statements) pertaining to each source can be viewed by expanding the source.

CELSs are then listed underneath the source (displaying Dx/symptom, Body Region, Grade, etc).

Clicking anywhere along the source line will expand the source to show its associated Clinical Evidence Logic Statements.

For a better view of a source with multiple CELs, click OPEN.
